

# Our Company

**Veteran Owned and Operated since 1983**

Simply the best IT company in San Diego. We are proud that the majority of our staff have served in the United States Armed Forces. Part of our company's mission is to support the hardworking veteran community. Our experienced teams are experts in cloud and on-premise network integration, IT Consulting, and Cybersecurity. We are well known for our personalized consultative approach to making IT work for your company. Our clients are our business partners. Their success is our success, and as they grow, we grow.

# Connecting People and Technology

## A Technology Company Where Relationships Move People

We are a company of problem solvers. We discover and understand our business partner's real problems and issues to develop the best possible solutions.

### Our Mission

To earn our clients' long-term confidence by delivering more than expected, being fair and honest, and taking a "best practices" approach to providing business solutions.

### Our Vision

To align our success with the goals and success of our clients, with dedication to make their business more efficient through the use of technology.

## Core Services

Data Net performs a myriad of services. From fully managed IT to system integration projects and everything in between.

### Managed IT Services

Whether you need an entire outsourced IT department or just need to augment the abilities and support of your existing IT department, we can help.

### Systems Integration

We take the guesswork out of your next integration project. From setting up a hybrid cloud environment to a full scale network buildout, we can help.

### Cloud Services

Many companies are moving to the cloud. If you are ready to move to the cloud or create a hybrid onsite hardware and cloud environment, we can help.

### Security and Compliance

We know how challenging compliance frameworks can be. Whether you're just getting started or simply need to audit your security posture, we can help.

## What We Offer

100% USA based operations and support. Located in San Diego, our engineers and technicians are able to make onsite visits to your business when needed.

Business partnership. When you do business with Data Net, you are more than a client; you are a partner. We take care of your business the way we take care of our own.

Engineering focused client services. We are passionate in our innovation towards solutions that deliver beyond our business partners' expectations.

Strategic planning and leadership. We work with your leadership teams to develop and maintain budgets and roadmaps to help you achieve your goals.
